myself the champion Dyspeptic of America. During the years that I have been afflicted I have tried almost ev rything claimed to be a specific for Dyspepsia in the hope of finding something that would afford perman-ent relief. I had about made up my mine to abandon all medicines when I noticed an endorsement of SIM-MONS LIVER REGULATOR by a prominent Georgian, a jurist whom I knew, and concluded to try its effects in my case. I have used but two bottles, and am satisfied that I have struck the right thing at last. I felt its beneficial effects almost immediately. Unlike all other preparations of a similar kind, no special instruc-tions are required as to what one shall or shall not est. This fact alone ought to commend it to all troubled with Dyspepsia. J. N. HOLMES, Vineland, N. J.

Court of Appeals-Judge Turner A. Gill. From the Kansas City Times.

"Yes, I would like to receive the nomination for Judge of the Kansas City Court of Appeals from the Democratic convention, if the convention sees fit to give it to me, and I would be pleased to have the Times announce my candidacy." The foregoing is the way Judge

Turner A. Gill replied to a question in regard to his rumored candidacy for the Court of Appeals bench. It is needless to tell Kansas City and Jackson county Democrats who Judge Gill is. They all know him way back, and the longer he has been known the more popular and respected has he become. He has never been an office-seeker in the common acceptance of the term, and every office he has held has come as near seeking him as an office ever does seek the man; for during the public life

of Judge Gill he has never signified alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER Co., 106 Wall St. N. Y. 42-48t place that his constituents had not been eager to give to him. Judge Gill has been in public

## Lightest Draft Mover

In the World! It will do as much work as two side cut machines.

Hay will cure in one-third the time. Simplicity of construction. No bevel gears causing waste of power and adding friction.

Easiest handled and most perfect working mower in the The crop is left untrampled, light and loose.

Can mow on any side, choosing the one most favorable for pest work, which is a great advantage where the crop is lodged. Advantage of having the cured hay in a body. The first hay cut is the first ready for raking and stacking.

Cuts a full swath every time. It is the easiest machine to ride, having a long axle and

Horses being spread wide apart work easier and cooler, Our patent under-draft takes all weight off the horses' necks Direct draft is the correct principle. Put your work behind our horses if you would have them do it easiest.

COMPARATIVE CAPACITY OF THE EUREKA AND THE SIDE - CUT MOWERS.

Distance traveled to mow 20 acres with the 4 1-2 foot sidecut, 36 2-3 miles. Distance traveled to mow 20 acres with the 7 foot Eureka

This gives a difference of 13 miles less travel with the Eureka Stock Fed by the day, week than with the side-cut in mowing 20 acres.

or month.

Add to the above advantage possessed by the Eureka the fact that the grass cut with our machine will cure in one-third less time, it being untrampled, and we have substantiated our claim that double the amount of work can be accomplished in the same time with the Eureka than with the side-cut mower. The cutting being directly behind the horses the draft is no

greater upon the Eureka than upon the 4 1-2 foot side-cut. In connection with the above proposition, do not lose sight of the fact that there must be additional wear and tear upon the side-cut over the Eureka, as it has to travel in operation 13 miles more to do the same work.

What is true in cutting 20 acres is also true of all work don in the lifetime of a machine. Practical farmer, these are facts worthy your careful consid

eration in the purchase of a mowing machine. South Side of Public Square, Ferris Son.
